RareBooksClub. Paperback. Book Condition: New. This item is printed on demand. Paperback. 48 pages. Original publisher: Washington, D. C. : U. S. Govt. Accountability Office, 2007 OCLC Number: (OCoLC)123956088 Subject: Emergency communication systems -- United States. Excerpt: . . . 10 AMBER Alert System typically retransmit EAS alerts automatically. A cable industry The AMBER Alert system was developed to help representative told us some smaller cable systems have sought and find abducted children. It began in 1996 after the received waivers from the federal EAS requirements. According to FCC, abduction and killing of Amber Hagerman, an Arlington, Texas, girl. AMBER Alerts are issued by waivers of EAS requirements are currently in effect for 242 cable systems law enforcement authorities, who, after they determine a case meets certain criteria, notify nationwide. These 242 cable systems are very small, each with fewer than broadcasters, who broadcast information about the 100 subscribers, and represent approximately 8, 600 subscribers in total. victim and the abduction. State transportation officials are also notified. Besides through FCC indicated it grants waivers because compliance with EAS broadcast media, AMBER Alerts can be publicized requirements could represent a significant financial hardship for very over the Internet. on

Reviews

The very best publication i at any time read through. I actually have go through and i am confident that i am going to planning to read through once more once more down the road. I found out this ebook from my i and dad advised this publication to learn.
