

How to Get A s in High School Math and Science: Algebra, Geometry, Chemistry, Physics, Trigonometry, and Calculus (Paperback)

By MR John D Forlini

4lini Publishing, United States, 2014. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.How to Get A s in High School Math and Science is a book that fills a gap in high school learning. The gap is twofold. First, students do not have knowledge of what these courses are truly about prior to taking them. This book provides an easy to understand overview of each subject so the student will know what the subject is about in class from day one. Even during the course, this book would be valuable because it gives the student a total picture, which makes learning in the classroom easier. Each subject is a chapter in the book and is a mini course in itself. In addition, there are just the right amount of problems and solutions provided to orient the student for the course. Second, the summer prior to taking the six math and science courses (algebra, geometry, chemistry, physics, trigonometry, and calculus) is a gap in itself. Students have forgotten their previous math to some degree over the summer and have gotten out of the study habit. Each subject would only require...
