Reviews

This pdf may be worth acquiring. It can be written in easy words and phrases and not hard to understand. I am pleased to tell you that this is basically the finest book I have read through during my personal existence and might be the greatest pdf for at any time.

Not illustrated. 1916 Excerpt: .one question, two questions, etc. These diagrams are not reproduced here. Attention was called to the almost ideal character of these surfaces of frequency. The medians were as follows: For the lower seventh grade, 10.75 questions; for the upper seventh grade, 11.12 questions; for the lower eighth grade, 12.17; and for the upper eighth grade, 13.76. grade is 10.75, and that for the upper eighth grade is 13.76, it appears that the added year and a half of school life have enabled the children of the upper eighth grade to answer, on the average, just 3 more questions correctly out of these 20. The diagram which I show you here (Figure II) is the scale for the difficulty of 40 questions in geography. I take it that you are more interested in the scaling of the content subjects, or something from the content subjects, than you are in anything else that I could offer to you, and I am quite sure that nothing that I could give you would be newer or more original material. I am sorry that this picture does not show up better on the screen. In respect to the amount of material (40 questions), it is the best scale I have to offer this afternoon. The easiest question is located here on the general scale (indicating); it is question number 1 of the June test. The question is, In what country is London? In the lower seventh grade the same question also...
