Paperback Pages Number: 314 Language: Simplified Chinese Publisher: Shanghai Far East Publishing House; 1st edition (June 1, 2007). New Curriculum in the examination of physical characteristics of the question and the finale of the title sets the main content: Over the past decade. We have been engaged in the test evaluation studies. we are delighted to discover the pioneering efforts of the proposition and researchers everywhere. around in the quality of test questions has increased annually. teaching junior high school physics has played a good role in guiding. However. due to the imbalance of economic and cultural development between China's vast territory and regions around the test questions between the existence of some differences. the majority of teachers and students in junior high school physics teaching in the first-line is difficult to grasp the new physical concept of curriculum evaluation. meaning and eager to introduce the latest in test evaluation research relevant experts and scholars. Based on this consideration. combined with years of research in recent years around the excellent questions to review and classify a compilation of expectations...
