

Computing and Combinatorics: 11th Annual International Conference, Cocoon 2005, Kunming, China, August 16-19, 2005, Proceedings

By -

Springer. Paperback. Book Condition: New. Paperback. 995 pages. Dimensions: 9.1in. x 6.1in. x 1.5in. The papers in this volume were presented at the Eleventh Annual International Computing and Combinatorics Conference (COCOON 2005), held August 16-19, 2005, in Kunming, China. The topics cover most aspects of theoretical computer science and combinatorics related to computing.

Submissions to the conference this year were conducted electronically. A total of 353 papers were submitted, of which 96 were accepted. So the competition is very fierce. The papers were evaluated by an international program committee consisting of Tatsuya Akutsu, Vineet Bafna, Zhi-Zhong Chen, Siu-Wing Cheng, Francis Chin, Sunghee Choi, Bhaskar DasGupta, Qizhi Fang, Martin Farach-Colton, Raaele Giancarlo, Mordecai Golin, Peter Hammer, Tsan-sheng Hsu, Sorin C. Istrail, Samir Khuller, Michael A. Langston, Jianping Li, Weifa Liang, Guohui Lin, Bernard Mans, Satoru Miyano, C. K. Poon, R. Ravi, David Sanko, Shang-Hua Teng, H. F. Ting, Seinosuke Toda, Takeshi Tokuyama, Peng-Jun Wan, Lusheng Wang, Todd Wareham, Jinhui Xu, Xizhong Zheng, Kaizhong Zhang and Binhai Zhu. The authors of submitted papers came from more than 25 countries and regions. In addition to the selected papers, the conference also included three invited presentations by Alberto Apostolico, Shang-Hua Teng, and Leslie G. Valiant. This year's Wang Hao Award (for young researchers) was given to the paper Approximating the longest Cycle Problem.

Reviews

It is a single of my favorite pdf. Yes, it is engage in, still an amazing and interesting literature. It is extremely difficult to leave it before concluding, once you begin to read the book.

-- Dr. Keeley Windler

Absolutely essential read through book. it was actually writtern quite properly and useful. Its been developed in an remarkably basic way and it is only following i finished reading through this ebook where really changed me, modify the way i believe.

-- Torrey Jerde
