

Exploring Water with Young Children Teacher's Guide (Paperback)

By Ingrid Chalufour, Karen Worth

Redleaf Press, United States, 2005. Paperback. Book Condition: New. 274 x 211 mm. Language: English . Brand New Book. Looking at science in a new way, Exploring Water with Young Children focuses children's explorations to help deepen their understanding of water and its properties including concepts related to water's flow, appearance and effect on objects. The third unit in the Young Scientist Series, this field-tested curriculum supports the early development of important science inquiry skills such as questioning, investigating, discussing and formulating ideas and theories. Karen Worth is a graduate-level instructor in the early childhood education department at Wheelock College. Ingrid Chalufour has designed and conducted training programs for a variety of early childhood staff for more than 35 years. Both authors live in Newton, Massachusetts.
